

# Records Management System

Records Management is an important function of any agency, and Beacon RMS provides a variety of tools to help maintain records in an easy to use way. Beacon RMS includes various modules to archive data, such as Citation Book Tracking, Case Management, Trespass Warnings, Evidence, Incidents, Arrests, and much more. RMS Uses the latest Microsoft technology to create a user friendly interface that provides information to the user with just a few clicks.

- Incident & Arrest Reporting
- Citation Book Logs
- Citation & DUI Citation Entry
- Field Initiated Investigations
- Trespass Warning Management
- Secure Evidence Tracking
- Warrants & Service Attempts
- Case Management Review, Reject, & Approval abilities
- UCR Reporting & Data Analysis
- Seal & Expungement Abilities
- Master Name Index Search
- And Much More

**An Easy to Use  
Records Management  
System That Works  
for Any Agency**
